Thursday Mar 27	I-15 northbound at Baseline St.	#1 lane closed	9:00 a.m. to 3:00 p.m. Repair concrete wall

“Cone Zone” tip for the week:

The most common cause of motorist deaths and injuries in work zones is rear-end collisions. For your own safety and the safety of your passengers, remember the following: slow down, allow extra following room, merge early, expect sudden slowing or stopping, watch for drivers changing lanes at the last minute, and do not use your phone while in the “CONE ZONE”.

The information will be sent prior to the week the work takes place. This “Alert” will be updated if new information is available or changes. If you are interested in signing up for email distribution of alerts, please email your request to Public Affairs on our website at www.caltrans8.info or call us toll free at (866) 383-4631.
